

# **HAND-TURNED STONEWARE SIGNED AND PRODUCED BY ALABAMA POTTERS**

Arranged alphabetically by potter or merchant

[mtlongleaf@gmail.com](mailto:mtlongleaf@gmail.com)

Pottery is listed alphabetically according to the potter or merchant last name. Where only initials are used for identification, the last initial is assumed to represent the jug owner's last name.

Alkaline and salt glazed, hand-turned whiskey jugs on the “Whiskey Jug” pdf are also provided in this listing. Unless Albany slip jugs are clearly made by local potters, they are omitted from this pdf.

Stoneware in other collections is noted as WANTED
